IRIS MINI ALUMINIUM COMPACT

IRIS MINI ALUMINIUM COMPACT

Choose sustainability with our PPWR-ready mini compact —the eco-conscious solution for a circular economy.

Crafted with aluminium, a material that is infinitely recyclable, this compact combines responsibility with style.

Perfect for solid or pressed powder formulas, it offers a wide range of decorative finishes, delivering limitless design possibilities without compromising recyclability.

PRODUCT DESCRIPTION

This compact is **PPWR-ready**: featuring an aluminium monomaterial design that is **recyclable** at scale, **lightweight**, and highly **efficient**.

High value and infinitely recyclable, aluminium is a material tailor-made for a more circular and sustainable economy. Around 75% of all aluminium ever produced remains in use today — and this compact will continue that cycle.

Construction: Aluminium compact in 3 parts: double wall aluminium base, thin wall screw cap.

Materials: Mono-material aluminium

Dimensions: Ø48mm * 10.6mm

Pan size: Ø35mm * 4mm

ENVIRONMENTAL ASSESSMENT

Lightweight packaging

Reduction of transportation footprint & cost

Infinitely recyclable

DECO OPTIONS
